The answer is yes, provided that the new incorporated subsidiary meets all the other requirements of Code Section 31-2A-36(a).

Hi Diane!

A national organization provides pregnancy support services at clinics in multiple states. The organization is incorporated under the laws of another state, but it operates a clinic providing pregnancy support services in Atlanta. In order to meet the requirement that recipients be incorporated in Georgia, this organization proposes to create a new subsidiary entity incorporated in Georgia to become the grant applicant and the "Provider" for purposes of the contract to provide pregnancy support services. This new entity would then contract with the national organization to provide the pregnancy support services on its behalf. The national organization has been providing pregnancy support services nationally for more than one year. Given that Paragraph 5 of the proposed contract provides, "Provider will offer any or all eight Pregnancy Support Services . . . either through its own personnel and facilities or *through third-party vendors under contract to Provider*", would an application from this subsidiary meet program eligibility requirements?

This is the response I sent but please let me know if it doesn't answer the questions:

Would an organization who is not incorporated in the state of Georgia but who is doing business in Georgia be eligible for our grant? No they wouldn't be eligible. In order to be considered for a grant under this grant, each direct service provider has to be a nonprofit organization incorporated in Georgia with a tax-exempt status.

Would one be eligible who is doing business (DBA) under another non-profit? If you mean a non-profit organization that is incorporated in Georgia with 501(c)(3) status, and does business with the public under a name other than its official corporate name, then it would be eligible.

Hi Diane!

I hope you've had a good week! Any word on this response? The non-profit who is inquiring sent this description of what they are looking to do: The new Georgia entity would apply for and receive funds, and it would contract with Human Coalition (the existing corporation) to provide the services. Per paragraph 5 of the contract, the services can be provided "through third-party vendors under contract to Provider." The contract would comply with the further requirements of the paragraph.

Thanks,

Christina Middleton

Hi Diane,

Would an organization who is not incorporated in the state of Georgia but who is doing business in Georgia or one who is doing business (DBA) under another non-profit be eligible fo our grant? I'm sure our questions will increase this first round until we get a good working flow!

Thanks,

Christina Middleton
